My first went a little like this  
And twist and twist

My first kiss went a little like this  
And twist and twist

I said no more teachers and no more books  
I gotta kiss under the bleachers  
Hoping that nobody looks  
Lips like licorice tongue like candy  
Excuse me miss but can I get you out your  
panties?

In the back of the car On the way to the bar  
I got you on my lips (I got you on my lips)  
At the foot of the stairs  
With my fingers in your hair  
Baby this is it

She won't ever get enough  
Once she gets a little touch  
If I had it my way  
You know that I make you say  
whoooooo .. whoooooo  
(repeat)

Well my first kiss went a little like this

I said no more sailors and no more soldiers  
With your name in a heart  
Tattooed up on the shoulders  
Your kiss is like whiskey  
It gets me drunk  
And I wake up in the morning  
With the taste of your tongue

In the back of the car on the way to the bar  
I got you on my lips (I got you on my lips)  
At the foot of the stairs  
With my fingers in your hair  
Baby this is it

She won't ever get enough  
Once she gets a little touch  
If I had it my way  
You know that I make you say  
whoooooo .. whoooooo  
(repeat)

My first kiss went a little like this  
and twist and twist
