So we by the bar,  
All eyes on us girls watching from far,  
We shouting through the dark.

Saw this sexy little thing she was biting her lips,  
Working at me hard,  
So i just went over there and just whispered in  
her ear,  
Do you wanna start?

Girl I wanna party with you,  
Girl I wanna party with you,  
I got the girls in the truck got six chicks deep,  
And you know cos we rolling with the straight  
sexy.

Girl I wanna party with you,  
Girl I wanna party with you,  
I got the girls in the truck got six chicks deep,  
And you know cos we rolling with the straight

All night, can you keep up?  
When we hit the dance floor you know we turn  
the heat up,

All eyes on us DJ turn it up.
