You can see that you're being surrounded every  
direction,  
Love was just something you found to add to  
your collection,  
It used to seem we were number one,  
but now it sounds so far away,  
I had a dream we were running from some  
blazing arrows yesterday,

You said fight fire with fire,  
fire with fire, fire with fire  
Through desire, desi- sire,  
desi-, through your desire

Now the city blocks out the sun that you know is  
rising,  
You can show me the work that you've done,  
your fears have been disguising,  
Is it just me or is everyone,  
hiding out between the lights,  
Where will we be when we come undone?  
Just a simple meeting of the minds

Singing we'll fight fire with fire,  
fire with fire, fire with fire  
Through desire, desi- sire, desi-  
through your desire  
We'll fight fire with fire,  
fire with fire, fire with fire  
Your desire, desi- sire, desi-  
through your desire

And while (\*) in your stars  
There's a million else burning brightly just like  
fire fight,

It's cold and heaven surround you every  
direction,  
Cause there's someone behind every hand that  
you've made a connection  
And now we're free to be number one,  
morning isn't far away,  
I had a dream we were holding on  
and tomorrow as we come today, we come today

And we'll fight with fire, fire with fire, fire with  
fire  
Through desire, desi- sire, desi-, through your  
desire  
We'll fight fire with fire, fire with fire, fire with  
fire  
Your desire, desi- sire, desi-, through your desire
